Renault MEGNAE GrandCoupé

Spirit of conquest

Bold and commanding, MEGANE GrandCoupé brings new energy to the city. Its lines – solid, dynamic and highlighted with chromium – quickly dominate the scene. Broad shoulders, sculpted sides and a ribbed bonnet radiate confidence. Inspired and statutory, MEGANE GrandCoupé pushes the limits.

Distinctive signs

Its light signature is the first thing people notice. On both sides of the assertive chromium grill, LED PURE VISION lighting equipment is framed by C-shaped LED daytime running lamps that provide a 3D effect and give depth to the vehicle's steely gaze. At the rear, the new lighting signature traces an intense, dark-red horizontal line. Proudly supporting its chromium diamond, MEGANE GrandCoupé affirms its ambition and dominates the road.

Exclusive advantages

At the wheel of MEGANE GrandCoupé, the driving experience is enriched with driving technologies unique in the sector: Driving bends to your wishes with the MULTI-SENSE system. The meter, with its 8.7 inch TFT screen, lets you personalize your driving information display, while the R-LINK 2 connected tablet provides you with numerous functions including navigation, call management and multimedia content reading. Adapted to the distinctive acoustics of Renault MEGANE GrandCoupé, the Arkamys® sound system invites you to enjoy a new musical experience. You'll feel your emotions on a whole new level.

Connected universe

Settle into the MEGANE GrandCoupé cockpit and discover its universe of connected technology. At your fingertips, bringing harmony to the dashboard, the R-LINK 2 system and its large touch screen make total control of the vehicle only a touch away. Use Bluetooth® to connect your smartphone and to manage your calls and multimedia content. Choose the MULTI-SENSE driving mode according to your mood for a unique experience. On board, you are the master.

Attention to detail

To illuminate your journeys and bring light into the passenger compartment, New MEGANE GrandCoupé expands your horizons with its glass sunroof. All around you, the richly-furnished interior shows its appeal with its high-end comfort, brushed chromium inserts and refined finishing touches. The customizable ambient lighting highlights the central console and door panels, creating an atmosphere in the passenger compartment to match your mood. Once you are seated comfortably, enjoy the massage feature. On board MEGANE GrandCoupé, experience unrivalled pleasure.

R-LINK 2: the centralised control system

The R-LINK 2 multimedia system is a veritable intuitive and connected control centre. Use voice control to access navigation or the telephone, find your musical content, manage driving assistance technology, and access various services with nothing more than a touch of the fingers. Customise the display, download your favourite applications (Michelin® guides, email reading apps, and more), save your seat and air conditioning settings, and configure up to six different profiles.

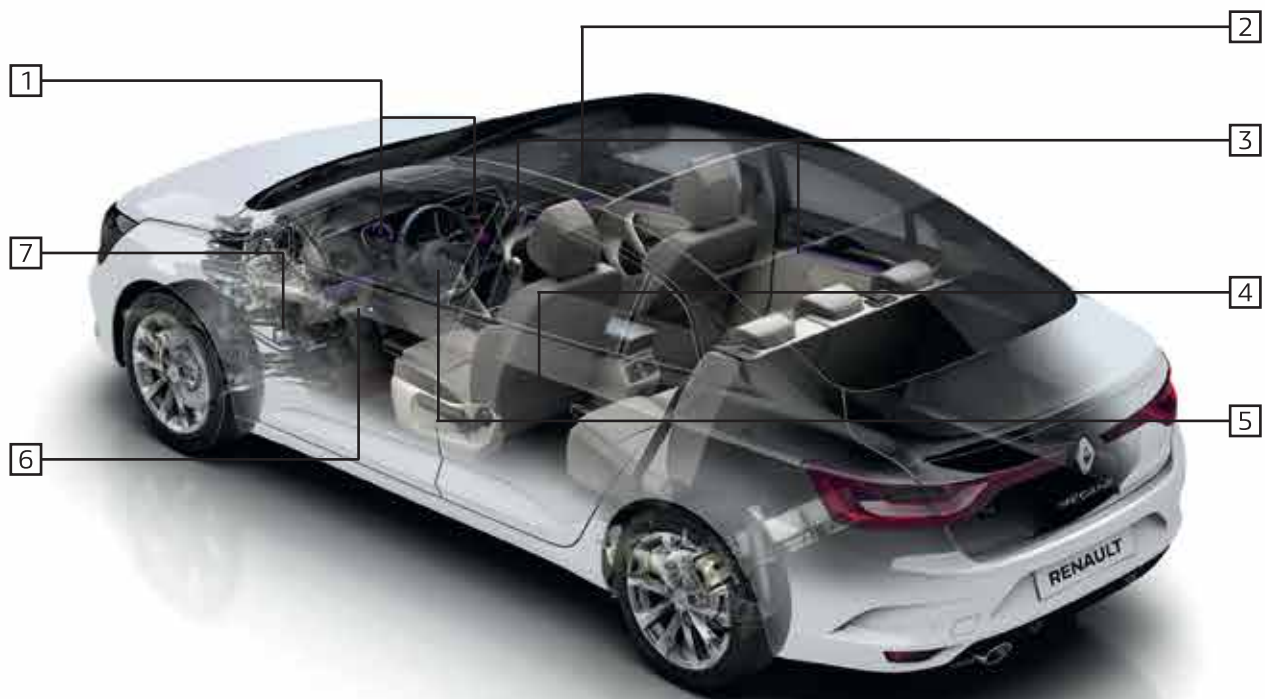

A multitude of sensations

Choose between the five driving modes offered by the exclusive MULTI-SENSE system. The ambient lighting and the dashboard configuration adapt instantly. Increase the responsiveness of your engine with Sport mode, relax the steering and enjoy the massage seat in Comfort mode, choose fuel economy with Eco mode, stay in Neutral mode, or configure Personal mode according to your wishes.

1. Instrumentation display. Each mode comes with its own display style and information. 2. Automatic dual zone air-conditioning. Use Eco mode to control interior temperature and fuel economy. 3. Ambient lighting. Experience multi-sensory pleasure in green, blue, sepia, red or purple. 4. Massaging driver's seat. Specific to comfort mode, adjustable massage intensity takes well-being to the extreme. 5. Steering wheel effort. Smart power steering. The steering wheel resistance takes the selected driving mode into account. 6. EDC transmission gear selection. Flexible or quicker gear changes to give you the feeling you are looking for. 7. Engine response and sound. Acceleration responses depend on the mode selected and make it feel as if you are actually changing vehicle.

Welcome aboard

MEGANE GrandCoupé is waiting for you! With your hands-free card, unlocking and locking of doors is automatic. The luggage compartment opens when your foot is detected under the rear bumper or nearby by a support on your hands-free card. Enjoy the expansive 508-dm³ storage space above the floor. To adapt to any situation, the rear bench seat has a 1/3-2/3 split-folding design, to free up more storsge space.
