

SANTA FE

More details

Open for More

Open new doors with the all-new SANTA FE, the perfect blend of bold allure and magnetic attraction to adventure that makes every journey extraordinary.

Refined & Robust

A solid and unique presence with an impressive side profile
- radiating rugged strength and refined craftsmanship.

Exterior

Stylishly robust from all angles, the all-new SANTA FE features prominently glowing H-lights, adding a unique touch to a boldly sculpted yet seamless body.

H-lights (LED/Projection type) Head Lamps

21-inch Alloy Wheels / Sharp Fenders

*Exclusive for 2.5 GDI Engine

Hidden-type Assist Handle / Quarter Glass

LED Rear Combination Lamps

Bridge-type Roof Rail / Dual Sunroof

Lift open the full, wide tailgate to connect the indoors with the outdoors, expanding your everyday experiences.

Wide Tailgate Opening (Power Opening)

H-signature Design

Interior

Designed to establish a calming and relaxed ambience, the well-balanced interior presents an exceptional comfort.

Front Relaxation Seat with Legrest

Ambient Mood Lamp
Nappa Leather Seat

Panoramic Curved Display 12.3-inch (Cluster) + 12.3-inch (AVNT)

The all-new SANTA FE provides an accommodating selection of seating
- ensuring that even your backstage moments are flexible and open for more.

7-Seater

6-Seater

7-Seater

2nd-row Fold-and-Dive

2nd-row Power Reclining Captain Seat (6 Seats)
One-touch Walk-in

Convenience

The variety of storage spaces was meticulously selected to upgrade your journey.

Bilateral Multi-Console

Front Upper-tray
Under Floor Box

Dual Wireless Charger
Rear Lower-tray

UV-C Sterilization Multi-tray

The ideal curation of cutting-edge technology will enrich the quality of your rides.

Digital Center Mirror (Full-Display Rearview Mirror)

12-inch Head-up Display (HUD)

BOSE Premium Sound System

Auto Temp. Control (Dual)

Performance

HTRAC all wheel drive capabilities, combined with multi-terrain control modes, give you absolute confidence on the road.

4WD HTRAC

SANTA FE AWD provides optimal driving performance through actively distributing driving force to the front and rear wheels according to various driving situations.

Drive Mode / Terrain Mode (Auto, Mud, Sand, Snow)

Hybrid

Enjoy a smoother ride and dependable responsiveness with the all-new SANTA FE's hybrid solutions.

Smartstream Gasoline 1.6 T-GDI Hybrid Engine	Engine 180 Maximum Power PS/5,500 rpm	Electric Motor 27.0 Maximum Torque kgf·m/1,500~4,500 rpm	Electric Motor 47.7 Maximum Power kW	264 Maximum Torque Nm

Hybrid Model (Calligraphy)

Hybrid Exclusive Features

Paddle Shift-Regenerative Braking Mode

e-Comfort Drive

When passing speed bumps, this hybrid technology manages the motor to reduce vehicle shaking and provide a smooth ride on an uneven road.

When accelerating, the hybrid system controls the vehicle's motion such that the driver experiences less shaking and more linear acceleration.

e-Dynamic Drive

When the vehicle approaches a turn, the hybrid system regulates the vehicle's movement to execute torque vectoring while simultaneously maintaining the ideal level of tire grip for dynamic handling performance.

During overtaking acceleration, this function provides a quick acceleration response and improved torque performance.

Safety

The latest enhancements in safety will keep your family safe and sound in both daily and unexpected scenarios.

Blind-Spot View Monitor (BVM)

Haptic Steering Wheel

Surround View Monitor (SVM)

Rear Occupant Alert (ROA)

Hyundai SmartSense

More details

Forward Collision-Avoidance Assist 2 (FCA 2)

Forward Collision-Avoidance Assist 2 (FCA 2) monitors your surroundings and warns you if there is a risk of collision. After the warning, it automatically assists with emergency braking if the risk of collision increases – with an oncoming vehicle or PTW while turning left at an intersection, with an oncoming vehicle from the left or right, or while driving down the lane. It automatically assists with avoidance steering if there is a risk of collision with an oncoming/preceding vehicle or PTW in the next lane-while changing lanes, a vehicle/PTW/pedestrian/cyclist partially in the vehicle's intended path while driving, or a rear side vehicle/PTW when changing lanes.

Lane Following Assist 2 (LFA 2)

Lane Following Assist 2 (LFA 2) helps center the vehicle in the lane. The control performance has been improved, and the steering actuator control method has changed from torque control to steering angle control. Also, by additionally applying a direct Hands-On Detection (HOD) Sensor to the existing torque sensor recognition method, the performance to determine whether the driver is holding the steering wheel has been improved.

Parking Collision Avoidance Assist (PCA)

Reverse Parking Collision Avoidance Assist (PCA) provides a warning if there is a risk of collision with a rear object while reversing. After the warning, if the risk of collision increases, it automatically assists with emergency braking.

High Beam Assist (HBA)

High Beam Assist (HBA) detects the ambient light illuminance, such as a lamp of an oncoming vehicle or a preceding vehicle, and it automatically adjusts the high beams.

* Advanced Driver Assistance Systems (ADAS) is designed to provide assistance with the operation of a vehicle, drivers must drive with caution at all times.
* Functions may not operate depending on the surroundings and driving conditions. Refer to the instruction manual for details.

26 * Actual specifications may vary depending on the trim, powertrain and specifications selected.

* Advanced Driver Assistance Systems (ADAS) is designed to provide assistance with the operation of a vehicle, drivers must drive with caution at all times.
* Functions may not operate depending on the surroundings and driving conditions. Refer to the instruction manual for details.
* Actual specifications may vary depending on the trim, powertrain and specifications selected.

More details

Smart Cruise Control (SCC)

Smart Cruise Control (SCC) helps maintain distance from the front vehicle and drive at a speed set by the driver. Automatically stops when the front vehicle stops and automatically starts when the front vehicle departs within a short time.

Blind-Spot Collision-Avoidance Assist (BCA)

Blind-Spot Collision-Avoidance Assist (BCA) warns you if there is a risk of collision with a rear side vehicle in the blind-spot while changing lanes. When forward exiting a parallel-parking spot, if there is a risk of collision with a vehicle approaching from behind, it automatically assists with emergency braking.

Forward/Side/Reverse Parking Distance Warning (PDW)

Forward/Side/Reverse Parking Distance Warning (PDW) warns against collisions with objects around the vehicle at low speeds.

* Advanced Driver Assistance Systems (ADAS) is designed to provide assistance with the operation of a vehicle, drivers must drive with caution at all times.

* Functions may not operate depending on the surroundings and driving conditions. Refer to the instruction manual for details.

28 * Actual specifications may vary depending on the trim, powertrain and specifications selected.
