

The Mercedes-Maybach S-Class

Mercedes-Benz

The wealth of independence.

Maintaining the tradition of the legendary brand for top-class luxury vehicles, we are redefining the ultimate in luxury like never before. Step on board and experience an unparalleled combination of exclusivity, innovation and excellence.

A symbol of modern aesthetics
and luxurious spaciousness.

Poise and assurance characterise the unique design, underscored by the mighty chrome radiator grille with "Maybach" lettering and the bonnet trim strip at the powerful front end. All around the vehicle, many other chrome details provide lustrous highlights, perfectly complemented by the legendary two-tone paint finish if desired.

Your comfort is always the focus.

We keep coming up with new ideas for innovative and exclusive comfort in the rear. Among the latest of these are the comfort doors that open in a relaxed manner at the touch of a button. Or the seat belt feeder, which offers simple convenience. And on long journeys, the calf massage and the heated neck cushions can bring real pleasure.

Ready to assist you at any time.

The vehicle's surroundings are now monitored even more precisely and with greater foresight, so that many dangers can be reduced from the outset. From DIGITAL LIGHT to the extended Driving Assistance Package and rear airbags, the new generation offers a further boost to confidence.

Experience inspiration and first-class
feel-good comfort in the rear compartment.

Move the Executive seat to a comfortable position. Be inspired by the electric centre console and the MBUX Interior Assistant, and control the various comfort and entertainment functions. Enjoy the variety offered by the MBUX high-end rear seat entertainment system or work in relaxed style with the MBUX rear tablet.

Unique rear view with exceptional recognition value.

The two-part tail lights with animated functions are fascinating as a new design element and contribute to the high value appeal and unmistakable night design. In harmony with the front and side views of the top model in the Mercedes-Benz passenger car fleet, they form the perfect finishing touch to this masterpiece.

Active driving noise compensation.

Innovative driving noise compensation leaves annoying tyre noise behind and makes the new Mercedes-Maybach S-Class an oasis of calm. Whether in town or on long journeys, you only hear what you really want to hear via the optionally available Burmester® high-end 4D surround sound system.

MBUX Interior Assistant in the rear.

Intelligent and intuitive: the MBUX Interior Assistant in the rear has eyes only for you and can recognise many of your wishes based on your natural movements. Enjoy a driving experience that is in a class of its own, where you can sit back, relax and still have plenty of control, without having to do more than raise your hand.

MANUFAKTUR backrest trim in wood.

The backs of the front seats feature MANUFAKTUR wood trim elements in a colour coordinated with the rest of the interior and sport the “Maybach” emblem, further enhancing the ambience in the rear and visually underscoring the vehicle’s handcrafted character.

Enjoy a fantastic atmosphere.

The interior is showcased with exclusive materials in superb quality. An important component here is the leather upholstery with the brand-typical seat upholstery layout in a diamond design. This exceptional quality is complemented by other surfaces in the interior, which are upholstered in leather depending on the configuration.

Ambient lighting.

Showcase the interior according to personal preference or simply your current mood. The 64 colours of the ambient lighting create exciting colour schemes, which can alternate dynamically or illuminate individual areas in different colours – and include the two Maybach light colours twinkle-star and rosé gold.

Burmester® high-end 4D surround sound system.

Enjoy music as a unique 4D experience. Eight speaker-like exciters in the seats develop this new sound dimension with a sound massage. 30 high-end surround speakers, also integrated into the seats, and a subwoofer optimise the surround sound with a total output of up to 1750 W.

MBUX augmented reality head-up display.

The MBUX augmented reality head-up display turns the windscreens into part of the digital cockpit. Transparent projections onto the windscreens augment the driver's field of vision with relevant information about the current driving situation.

Discover the age of intuitive ease of use.

The combination of 3D cockpit display, MBUX head-up display with augmented reality in the front windscreens and the central OLED touch display represents an innovative and at the same time intuitive control concept. Thanks to MBUX voice control, the vehicle can adapt to your requirements and support you.

Exclusive Package.

Enjoy a superb ambience with the Exclusive Package. Virtually all surfaces are finished in exquisite nappa leather, the roof liner in high-quality DINAMICA microfibre. This exceptional high-class appeal is perfectly complemented by additional trim elements.

High-End Interior Package.

Experience a level of automotive luxury that verges on perfection. Electric comfort doors provide access to your First-Class rear suite, where you will be enraptured by the amazing audio quality of the Burmester® high-end 4D surround sound system. Innovative features such as the active ambient lighting and the MBUX high-end rear seat entertainment system create a sophisticated atmosphere.

Parking Package with 360° camera.

Exclusive parking service with all-around visibility: Active Parking Assist with PARKTRONIC and 360° camera detects available parking spaces as you drive past. After selecting a parking space you can enter it effortlessly thanks to dynamic visualisation and acoustic feedback – or have the vehicle enter the parking space with assistance.

Rear Seat Comfort Package.

Optimum seating comfort in the rear: the multicontour seats impress with more than an ideal seating position. A range of massage programs ensures that they can also have a revitalising or relaxing effect. Similarly, the heating system for the neck and shoulder area that is integrated into the additional cushion is a real boon.

AIRMATIC.

AIRMATIC combines the advantages of several suspensions in one – choose between comfort and dynamism. The setup range is particularly impressive. The air suspension provides outstanding ride comfort even on difficult roads, or a powerfully sporty performance. Practical: the level control system based on the vehicle load.

A unique driving mode just for the rear passengers.

The specially developed “Maybach” driving program focuses entirely on ride comfort for the passengers in the rear, while the COMFORT driving program offers balanced ride comfort for front and rear passengers. In the “Maybach” program, care is taken to ensure that the sprung mass vibrations felt in the rear seats are kept to a minimum. Other settings include an extra-flat throttle curve in chauffeur mode, transmission tuning with fewer shifts, and starting in second gear.

Technical data.

Mercedes-Maybach S 580 4MATIC
