

Drive the Future Today

U5 PLUS

EXTERIOR

LED Headlights

These headlights are designed to provide superior illumination, improved visibility, and modern aesthetics, making them a prominent feature of the vehicle. This intense illumination helps to better illuminate the road ahead.

Front Grill

The front grille of the U5 features a modern and attractive design that complements the bold and dynamic exterior appearance of the car. With its distinctive grille pattern, it adds a touch of sophistication and elegance to the front end.

LED Taillights

The U5 taillights provide bright, clear illumination, ensuring the vehicle is highly visible to other drivers, especially in low-light conditions and poor weather. The high beam output enhances safety by making the vehicle more visible.

Sunroof

It features a design that enhances the driving experience by providing an open and airy feeling inside the cabin. This stylish and practical addition provides aesthetic appeal and practical benefits.

17-inch Aluminum alloy Wheel rim

The 17-inch aluminum alloy wheel rims feature a contemporary design that complements the U5's exterior design, adding a touch of sophistication to its elegant appearance and enhancing the car's visual appeal.

Door mirror with electric fold

The U5 power-folding door mirror offers practical benefits by enhancing comfort, safety, and vehicle protection. With the ability to fold the mirrors automatically or with the simple push of a button, this feature helps prevent damage and improves maneuverability in tight spaces.

CLASSIC AND ELEGANT SUITS YOU

The U5 has a sleek, modern exterior design characterized by its aerodynamic lines and bold stance. It features a stunning grille that gives it a confident, contemporary look, complemented by sharp LED headlights that enhance visibility and style.

I INTERIOR

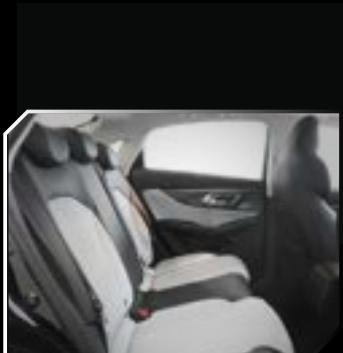

FIRST CLASS COMFORT

The U5 interior design offers a combination of modern technology and comfort and features a spacious cabin with high-quality materials and a carefully designed design. Key points include

12.3 inch control screen

It features a design that enhances the driving experience by providing an open and airy feeling inside the cabin. This stylish and practical addition provides aesthetic appeal and practical benefits

Rear seat whole foldable

The entire back seat folds flat to create a continuous, unobstructed cargo area. This fully foldable design maximizes usable space in the trunk area, allowing larger items to be transported that would otherwise not fit in the seats

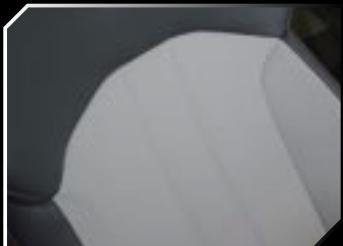

7-inch LCD meter

It is an advanced digital screen that improves the driving experience by providing clear, timely information about the vehicle's performance and condition, allowing the driver to quickly and easily access important information².

Rear USB charging port

It is an essential convenience feature in modern vehicles, designed to enhance passenger comfort and connectivity by providing easy access to charging capabilities for electronic devices in the back seat area

5 Leather seat

The seats are lined with high-quality leather, providing a sophisticated look and a comfortable feel for all passengers

ISAFETY

The Baic U5 Plus generally offers a range of safety features aimed at enhancing driver and passenger protection.

Ultra High Strength Cage Body

- | The 1500Mpa of highest pressure for thermo-forming ultra-high strength steel
- | The utilization rate of ultra-high strength steel reached 50%

ABS+EBD+EBA

The U5 is equipped with advanced safety technologies to enhance driver and passenger protection. Among these features are ABS, EBD, and EBA, each playing a crucial role in maintaining control and stability during various driving conditions.

LDW-Lane Departure Warning System

The system in the U5 is a vital safety feature designed to help prevent unintended lane departures and enhance overall driving safety. Using advanced sensors and technology, the Lane Departure Warning (LDW) system alerts the driver when it begins to veer out of its lane without signaling, making driving safer and reducing the risk of collisions.

360° panoramic image

The U5 features advanced driver assistance technology designed to enhance visibility and simplify parking and maneuvering. This feature provides a comprehensive view of the vehicle's surroundings, improving driver safety and comfort.

MOD-Motion Object Detection

The U5 is characterized by high security, as it enhances the car's ability to detect moving objects in its surroundings and respond to them. This technology provides additional layers of safety and comfort, making driving safer and less stressful.

Airbags

The U5 is equipped with dual front airbags for both the driver and front passenger and is an essential component of the car's safety system, designed to protect passengers in the event of a collision.

Rear radar(HAC)

The U5 is equipped with a rear radar system, and these sensors constantly scan the area behind the car to detect obstacles, such as other vehicles, pedestrians, or fixed objects.

SPECIFICATION

Model/Configuration	Luxury	Honor
Basic parameters		
Length*width*height (mm)	4660*1820*1480
