CHANGAN AUTO

UNI-T

The Producer of Future-tech

Borderless Grille
Replacing traditional pattern of grille by using parametric design with 150 diamond-shaped elements, creates a unique image of infinite and continuous integration as if the force of gravitation.

V-shape Spoiler
The original V-shape spoiler is one of UNI-T's iconic designs. Inspired by the swept-back wing design in aerodynamics, it can effectively direct airflow and enhance body stability at high speeds.

Exhaust Pipe Design
Quad exhaust pipe shows a strong visual impact of masculinity which gives a sense of technology.

Extra Large Panoramic Sunroof
The panoramic sunroof has 0.79m² size of sky view. The glass can effectively filter 97% of ultraviolet rays which protects the passengers and maintains a comfortable temperature at all times.

Hidden Door Handle
The hidden door handle is integrated with the curved body, effectively reducing wind resistance while showing the dynamic of the curved body. When the key is brought close, the door handle automatically pops out and automatically retracts when the door is closed, so that every appearance has an exclusive sense of ritual.

Wireless Charging Pad

15W wireless charging with Qi V1.2.3 communication protocol; ultra-fast charging with wide-range compatibility.

Smart Cockpit with Carplay and Voice Control

The new intelligent dual screen design with ultra-wide angle, high resolution and adaptive backlight control protect the eyes from fatigue to the max while reading and driving.

Gear Shifter

The space battleship electronic gear shifter has a sci-fi style, so that each shift feels like an interstellar expedition.

APA 5.0 Auto Parking System

When driving into the parking area with clear lines, you can turn on the auto parking system and the vehicle will automatically find a parking space within 20m and complete parking on its own, making parking easy and fun.

Integrated Adaptive Cruise Control System

Equipped with IACC system, the vehicle can achieve L2 autonomous driving having features of FCW+AEB+LDW+LAS+TJA+AEB+LCDA.

360° View camera with drive recorder

Equipped with 4 high-definition wide-angle cameras, the system can not only display the environment around the vehicle in real time, but also record high-definition images of four directions at the same time. When the vehicle is illegally invaded or in the event of collision, the system can automatically record the image and help to determine the responsibility.

Blue Core NE 1.5T High-pressure GDI Engine

Blue Core NE 1.5T high-pressure GDI engine is "powerful, clean and quiet". The maximum power is 132kw, and maximum torque can reach 300N.m at 1250rpm; The engine thermal efficiency is up to 40% to keep the fuel consumption under 6.3L/100km and the 0-100km/h acceleration time is 7.9S.

7-speed wet DCT

Blue Core 7-speed wet dual clutch transmission with rapid response and senseless switching; comprehensive transmission efficiency up to 94.3%; equipped with a number of innovative technologies such as intelligent pre-downshift, always ready to go; more than 3 million kilometers of road reliability testing, product quality guaranteed.

Ultra-high Strength Body

Combining thermoforming and ultra-high strength steel rolling technology to create the high strength lightweight steel body; steel strength up to 1500Mpa, high strength steel and above accounted for 61%, reaching industry leading level.

Superior Passive Safety

6 airbags provide all-round protection for driver and passengers in extreme conditions
